- 11 Compressor refrigerator C47L**
with drawer & partition rail, 12/24V DC, W430 x H370 x D686 mm, cooling +10°C - 0°C.
47L **Art. Nr. 2530900004**

From high-quality materials manufactured and by a new conceptually designed cover absolutely splash-proof. Break-down protection by a new sealing system and by VA mothernuts/countered hinges. Without sharp edges and absolutely vibration-steadily through completely welded seams.

Our storage cases can be adapted in form, size and colour (all RAL tones available) for each usual motor vehicle type. Because of such different vehicle types, the application type and requirements, which are placed for a storage case are just as different. Therefore we build completely individual storage as and when desired e.g. also devices for the installation of a refrigerator, shelves, drawers and base inserts into your case.

We manufacture all sizes individually according to you desires and in all RAL colours. For further information we are gladly at your disposal. We manufacture also vehicle-specific storage case holders after your desires and measurements. When desired also plastic-coated in all RAL colours.

Even "Made in Germany"

Special finishing for storage compartments - for everything that's important - individually finished

We will plan and design together with you your own individual storage compartment and build it to your specific measurements specially for you

◀ **Stainless steel - universal rear bumper without lights**, with rubber corners (incl. yellow reflectors), without mounting material.
